Election / Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I.*** Claims *1-21*, drawn to *a method of partially oxidizing an alcohol to an aldehyde or a ketone*, classified in class *568*, subclass *401*.
- II.*** Claims *22-38*, drawn to *a method of lowering NOx emissions*, classified in class *423*, subclass *239.1*.
- III.*** Claims *39-48*, drawn to *a control system for NOx reduction*, classified in class *60*, subclass *303*.

Inventions I, II, and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01. In the instant case, the different inventions have different modes of operation. Specifically, claims 22-38 require the steps of combining the reducing gas with the exhaust gas upstream of the reducing catalyst ..., and claims 39-48 require the system of an oxidizing catalyst assembly having an inlet connected to the ethanol source and an outlet connected to the exhaust path upstream of the catalytic converter, wherein the catalytic converter holds a selective catalyst reduction catalyst, and the oxidizing catalyst assembly contains an oxidizing catalyst that catalyzes the partial oxidation of ethanol to acetaldehyde at a yield of 50% or greater.

Because these inventions are distinct for the reason given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3748

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Art Unit: 3748
